

MEMO ENDORSED

5/19/20

United States District Court
Southern District of New York

United States of America
Plaintiff

V.S

Rakeem Wilson 68705-054
Defendant

11 cr 00630 (KMK)
Motion for Immediate
Release

Application is denied. Mr. Wilson is not suffering from any of the pre-existing conditions that the CDC has identified as placing people in at-risk-categories. His cysts have been treated, and, in any event, do not place him in any risk. His claim of suffering from asthma is contradicted by the medical records and even if true is not enough by itself to make out an extraordinary or compelling case for release, especially given Mr. Wilson's age. Moreover, his crime of conviction argues strongly in favor of denying the application, as Mr. Wilson is a demonstrated danger to the community and his early release for his serious crime would undermine the respect for the law.

The Government is to mail this memo endorsement to Mr. Wilson and certify that it did so by 6/12/20.

So Ordered.

6/8/20

I Rakeem Wilson 68705-054 Pro se
movant in this motion Motion for Immediate Release
due to COVID-19 Virus President Trump signed off for
inmates that are 3 years or less on their sentence
should be considered for immediate release in which
I qualify. I had received the response from the court
stating that I didn't demonstrate any administrative
remedies. In which is not true. I filled out a
compassionate release form. But my case manager
never came to pick it up. So I had gave it to
my unit manager Jones. In which he never turned it
into my case manager. But I guess when the courts
received my first motion and called up here is when

My case manager Ms. Fagg decide to come down to the special housing unit where I've been in confinement since May 23, 2019, for a accident that I had nothing to do with. I've been in the Special Housing unit for over a year now with no type of instructions. They just seen hiding me back here, if took me to write the Southeast Regional Office and a letter the Washington DC Central Office. So investigate why am I being held in the Special Housing unit. Since I've been back here I've done caught all type of medical issues. In which I put in request after request to see the doctor but was never seen. I've had a bump on my left ankle that's been bothering me for the last 7 months. I've asked the medical staff many times to test me for cancer, because I know that it runs in my family and they told me they don't test for cancer here. Also I've seen have hard times breathing and I wrote the medical staff about that and they still have not come to see me. About 10 months ago I had caught a hernia on my right side of my stomach. I was seen by the medical staff here back then and was suppose to go out for surgery. But here I am still in Padu because I have not had my surgery yet.

Coleman 2 has the worst medical staff I think in the F30p. There has been on going investigations on this place about staff and administration stealing the taxpayers dollars here. Especially in the medical field, that the reason I'm asking for Immediate Release from this Corona virus. Because if I was to catch it I would not receive the medical treatment that I would need to fight it off. Right now as we speak there are inmates on the compound that are infected with Covid-19 and it's been held in one of the units here. They have emptied two unit here, 21 unit & 22 unit were they are housing inmates that have tested Covid-19. They came up with a plan that is not a good idea to me. Their plan is to put inmate that contracted the virus in them units that I just mention. They not providing them with no real medical care. They are not about to be funding a bunch of outside doctor trip for inmates that catch this virus trust and believe that. Today 5/19/20 was the first time that I went out to see about my home that I caught back in August 2019. So I already know what they going to do if I was to catch that Covid-19. They going to place me in one of them units to

die. I've been having hard times breathing already, such as wheezing and choking. I told the medical staff in a medical request form (sick call) that my chest been hurting and I'm having a hard time breathing some times. That I think I got asthma, which also run in my family. But to no avail has anybody come and check me out. So that's why I'm writing this Motion for Immediate Release. Because God forbid if I was to catch this COVID-19 I would not get the medical treatment that I would deserve. In which I basically would be out of luck. I was not sentence to death I was sentence to 10 years. But if I was to stay in this to of place were the medical would not be able to save me if I caught COVID-19. Then it would be like I was sentence to death. So I ask the court to take my Motion in to consideration due to the fact I set forth in this motion.

I Rakem Wilson under the Penalty of Perjury declare the foregoing to be true and correct to the best of my knowledge.

Rakem Wilson 5/17/20
